

## *Importing Personal Property Into Lithuania*

### **CUSTOMS REGULATIONS AND REQUIRED DOCUMENTS**

#### **Customs Regulations:**

Client's presence during Customs clearance is not required but advised. Shipments are physically inspected. Used household goods and personal effects are duty free provided goods have been owned and used by the customer for a minimum of six months. If 2 shipments are being sent the second shipment must arrive no later than six months after the initial shipment.

**NOTE: As of 19 August 2010 an EORI (Economic Operators Registration and Identification) number is required for all imports and exports to clear Customs in the European Union.**

The requirement was introduced by the European Commission in July 2009 to enhance security. The EORI number must be used in all electronic communications with Customs Offices and other government agencies and departments. This number is valid in all EU member states and replaces ALL Customs identification numbers including the TIN (Traders Identification Number). All business operators and private individuals not established in the EU must obtain the EORI number from the authorities in the respective EU member state wherein the client intends to operate or reside. Please consult with your Destination Agent for further details and assistance.

**Safety & Security:** Recently, larger Lithuanian cities (Vilnius, Kaunas, Klaipeda, and Siauliai) have experienced an increase in marches and public gatherings protesting the effects of the global economic downturn. While these events have been overwhelmingly peaceful in nature, U.S. citizens are reminded that even gatherings intended to be peaceful can become confrontational. Therefore, U.S. citizens are urged to avoid the areas of demonstrations, if possible, and exercise caution if within the vicinity of any event. U.S. citizens should stay current with media coverage of local events and be aware of their surroundings at all times.

**Criminal Penalties:** Penalties for possession, use, or trafficking in illegal drugs in Lithuania are severe, and convicted offenders can expect long jail sentences and heavy fines. For more information about arrest procedures in Lithuania please visit the Embassy's website.

**Health:** Tick-borne encephalitis and Lyme disease are widespread throughout the country. Those intending to visit parks or forested areas in Lithuania are urged to speak with their health care practitioners about immunization. Rabies is also increasingly prevalent in rural areas. The Lithuanian Government does not require HIV testing for U.S. citizens; however, sexually transmitted diseases are a growing public health problem

**Special Circumstances:** Lithuanian Customs Authorities may enforce strict regulations concerning the temporary importation into or export from Lithuania of items such as firearms and antiquities. **Fumigation of Wood Packing Materials:** As a member of the EU Lithuania enforces ISPM15 regulations for wood packaging material (WPM). In addition to the implementation of treatment and marking requirements described in ISPM 15, the new EC import requirements provide that the WPM instead of being produced from debarked round wood from 1 January 2009 onward will need to be free from bark with exception for the presence of any number of individual pieces of bark. These should be either less than 3 cm in width (regardless of the length) or, if greater than 3 cm in width, of not more than 50 cm<sup>2</sup> in area. This latter free-from-bark requirement will be applicable from 1 July 2009 onward.
