Required Documents:

- ✓ Certificate of Title and Registration - must be original
- ✓ Commercial/Purchase Invoice – must be original
- ✓ Driver's License & International Insurance Policy (green card)
- ✓ Circulation Permit
- ✓ OBL

NOTES:

Entry & Exit Requirements: One should be certain they have many blank visa pages. At least 3 blank pages per entry is required. For those who may visit neighboring South Africa during their stay; one could go through pages quickly.

Mozambican law requires that all persons carry an identity document such as a passport when out in public and that they present it to police upon request. Notarized copies of both the biographic page of a passport and a valid Mozambican visa are acceptable forms of identification, although police will occasionally demand original documents.

Safety & Security: Overland travel after dark is extremely dangerous due to poor road conditions, lack of emergency services, and the increased potential for vehicle hijacking particularly on thoroughfares connecting Mozambique and South Africa. Americans on official business serving in Mozambique are prohibited from overland travel outside Maputo city limits after dark and are encouraged to travel in convoys of two or more vehicles when outside of the city during daylight hours. Americans on official business are prohibited from using “chapas” (local minibuses) due to frequent accidents involving these vehicles. Drivers should obey police signals to stop at checkpoints, which are common throughout Mozambique.

Crime: Street crimes, including mugging, purse-snatching and pick-pocketing are common, both in Maputo and in secondary cities. Car-jackings are increasingly common. One is advised not to display jewelry or other expensive items while walking around. Many airline trips from Mozambique to the U.S., Europe, or African destinations transit Johannesburg, South Africa. Baggage pilferage is an ongoing problem at Johannesburg's Oliver Tambo International Airport. Travelers are encouraged to secure their luggage, use an airport plastic wrapping service, and avoid placing currency, electronics, jewelry, cameras, cosmetics, running shoes, or other valuables in checked luggage. Having a complete inventory of items placed in checked baggage can aid in processing a claim if theft does occur.

Currency: It is against the law to destroy Mozambican currency; offenders can expect a jail sentence or fine. The limit for an undeclared amount of U.S. dollars one can take out of the country is \$5,000. The maximum amount of local currency one can take out is 500 metical, which is less than 20 U.S. dollars. The South African rand and U.S. dollar are sometimes accepted as legal tender, although this is more common in the southern part of the country or in tourist areas; all transactions must have a local currency (metrical) payment option.

Health: Yellow fever vaccination is encouraged or required of one had visited a country where yellow fever is present. Cholera is a serious risk and pre-cautions are essentials. Immunization against polio and typhoid is often recommended. Malaria exists year round particularly in the Northern region. Hepatitis A, B and E are present. Meningococcal meningitis may occur. Plague has been reported in remote areas. One should also be wary of the dangers of Tetanus. There is a high level of HIV/AIDs reported; thus one should take all necessary precautions. Rabies is present and vaccination should be considered.

Fumigation of Wood Packing Materials: As of this posting Mozambique does not impose ISPM15 regulations for wood packaging material (WPM).
